Administrator's Message...

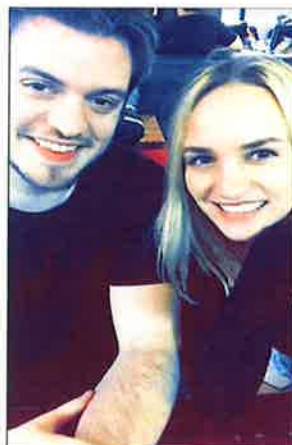

August 2021

I am pleased to announce I have accepted the position of Administrator of Briarwood. I have been interested in the health care industry ever since I can remember. In 2015 I graduated from the U of I with a pre-med degree in Health and Human Physiology. I quickly realized medicine was not the right path. After working in various administrative positions at UI Health Care, I decided to go back and get my Master's in Health Administration, graduating in 2020. Quickly after beginning my studies in administration, I fell in love with the idea of working in the geriatric community. Within a few weeks, I knew long term care was the path for me. Since graduating, I have been the administrator at Wapello Specialty Care. It has been an unbelievable journey and remarkably difficult to say goodbye to the staff and residents I have grown to admire. With that being said, I cannot begin to describe how excited I am to start my new adventure at Briarwood. I am so grateful for the opportunity to work and serve in a community I have grown to love for over 10 years. This is truly a dream come true and I cannot wait to create a unique relationship with each and every one of you.

I currently live in Iowa City with my partner Cody of 6 years and our two kitty cats, Fred and Pepper (all pictured below). We love spending our free time outside; playing tennis, riding bikes, and going on long walks.

Thank you!

Alexa Saco
